Resolutions Reported.

CHICAGO, Oct. 12 — At Monday's session of the Episcopal convention after the minutes had been read the president amongoed the formation of a committee on the judicial system of the church. The committee on cannons reported adversely to the proposition of Dr. Sam Belediet, of southern Ohio, that two or more discress unite in the constitution of a court of appeals, but held that a discress might add an appellate court to its own judicial system. The question is which was interrupted by the dissolution of the house Salurday, to sit as a board of missions, was resumed. The debate was on the proposition of the house of bishops that the committee on cannons of both houses be allowed to held joint sessions. Dr. Hopkins declared against the joint session, since if only departs in transactine language. be allowed to held joint sessions. Dr. Hop-kins declared against the joint session, since if only despatch in transacting tossness were to be consided, then expense and treable might be saved by letting the bishops do all the legislation. There was, in his opinion, too much eninging aubinission to the wiff of the bishops. Dr. Farrington, of Long Island, objected strongly to the constitution of a third between absorption to be considered in missions. In: Locke invited the delegates to the recention to be tendered birs by Mr. Hibbard at his residence, 15th Prairie avenue.

at his residence, 15th Prairie avenue.

After singing a hymn, the lit. Rev. Dr. Dutlley, Lisbop of Kentu ky, spoke about the work of the church among the colored people.

Dudley, Lisher of Kentucky spoke about the work of the church among the colored people. He seid:

"I was brought up among them and I think they have a claim on us for consideration. I feel a blush of shame that so little has been done. I believe that there should be un color line in religion. We told them so three years ago and what has come of it? Comparatively nothing. From the depth of my branch I believe in the Catholic church, and I do not believe in the Catholic church, and I do not believe in the Catholic church, and I do not believe in the Catholic church, and I do not believe any one has the right to conic into my diocese to look after a certain chase, where the Lord God lists are retrieved in the country of the church. I had as soom sit by a black man who has been ordained a bishop as by the whitest man in the world. The projectice is dving out, but do not get angry with us because it does not die Inster. Why has so little been done. It is because we do not really believe the colored men have any claim on use I is it because we think the Methodists and Bantists can bandle them? If that is so the soomer we abundon the claim of being a Catholic and Apostolic church the better. Then we are a more community of casts and asthetic culture. Are we to have a trinity of the Protostant Episocpal, it formed Episocpal, and African Eryscopal, a three-fold card: God for they have a reason for belonging to the catholic business of their own color, but we want a missionary who shall be the incarnal fall drag down the white people of Bishop Wingold the for they have a reason for belonging to the Catholic church of Lists, their sacraments but a form the community of a cast and asthetic culture. Are we to have a continuously of the contrast of the colored people of Bishop Wingold and the colored people of Bishop Wingol
